

# Homework Project

**Heart and Health** This topic is centred around humans' and animals' heart and how to keep it healthy. The activities below are all project based and children should make their own decisions about how to present their work. Prizes for winner and runners up on offer. **Completed projects should be returned to school by Monday 27th March 2023.**

Find about some famous heart surgeons. What do you need to study to become a heart surgeon? How long would it take if you started right now? What skills and personality would make you successful in this role?	3
Find out about the size and structure of a human heart. How are animals different? Compare lots of different animal hearts—size, structure and how many. Did you know worms have five?!	3
Create and construct a 3D model of either an actual animal or human heart. Use any form of materials that you can get your hands on. Don't forget to include same size, structure and colour.	4
Sketch the circulatory system using all the elements and directional arrows to show oxygenated and deoxygenated blood flowing around the body.	4
<b>Be kind to your heart!</b> Research information and plan ideas for a weekly menu of food that your heart would love. You could even make your favourite food and share with the rest of the class on due date.	3
